How to add and edit users in Easy7 Smart Client Express

Description: This document will show you how to add users and edit users' permissions in Users Management of Easy7 Smart Client Express.

**Prerequisites:** Easy7 Smart Client Express
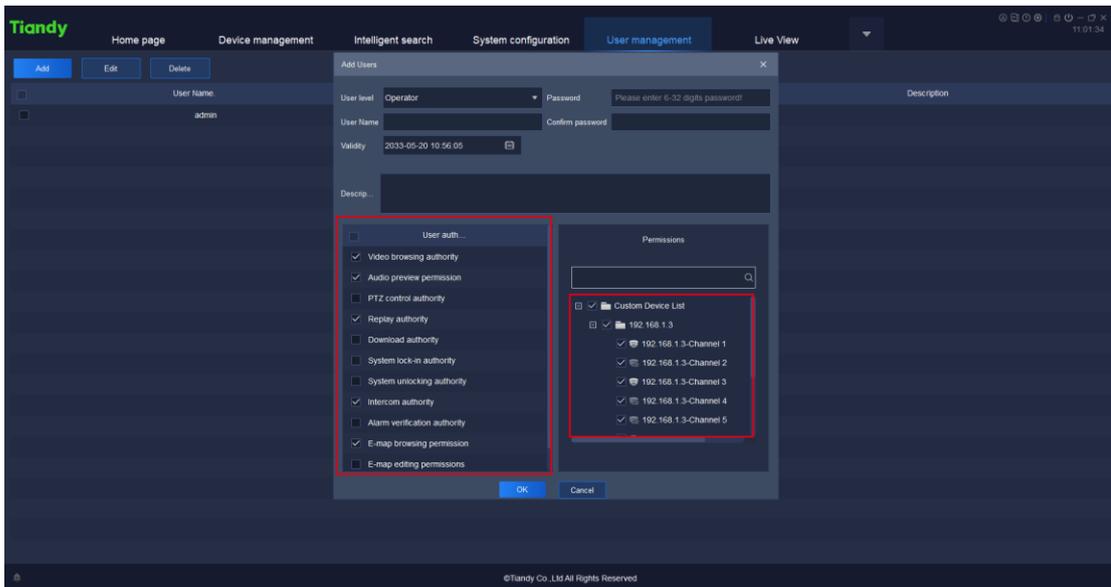

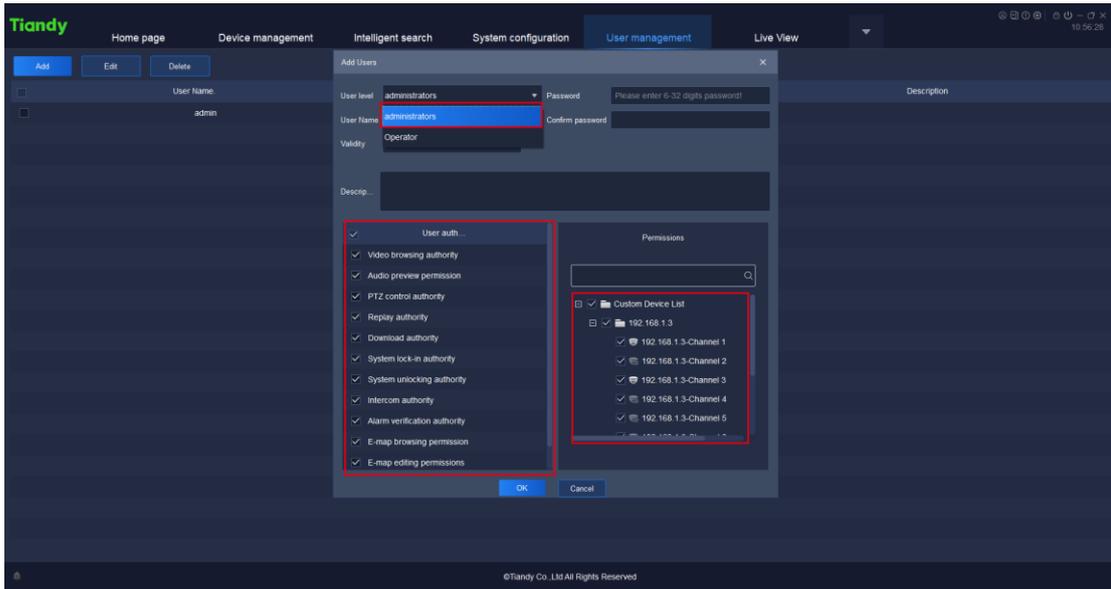

Section 1: Add users.

1.1 By default, only super administrators in User management, click 'add'.

1.2 There are two different type of users, administrators and operators. The administrators default to the same as Super Administrator privileges. However, you can choose which permissions are assigned to administrators. The operators have fewer privileges than administrators, but assignment permissions can also be set.

1.3 Set the users' name and password, and it's able to set the validity.

1.4 The user can be described.
