How to set local record at Easy7 software

Description: this document will show you How to set local record at Easy7 software, and when you do this setting what you need to notice

Note: Local-record function of Easy7 software will record the video at the PC where the software installed, So it will take some space at your PC's HDD

Section 1: How to set local record

1. Storage management set

- 1.1 Select System configuration >Storage management
- 1.2 Set recording time, record format, record stream type, min disk space(how many space left, the HDD zone you chose), disk full (when the space is full, you need what kind of operation), location

2. Record plan set

- 2.1 Select System configuration >Record plan
- 2.2 Choose the camera which you want to set, there are two kinds of operation at time template

Note: Only one template can be used at a time

You need to Enable local recording schedule first

2.5 There are three small functions at this page

- 1. Icon at the left of date, if you click, it means copy ,you can choose multi days to do the same setting together
- 2. Put mouse pointer at the timer shaft, if there are blue, you can click and dug to make pointer as an eraser to delete time
- 3. If there are empty, you can click and dug to make pointer as a pencil to add time
