2. Port forwarding setting

- 2.1 Click enabled button.
- 2.2 The default mapping type is UPNP and the UPNP types are Auto Scan/Manual.
- 2.3 Save and wait for state to change to activate state.
- 2.4 If state doesn't change to activate state, select UPNP type to manual type.
- 2.5 In manual type, could change external port to be different with internal port.
